

Here are the questions you should always ask a web designer.  
We've also added our answers too!

## Question

---

Will I own the website in full, including all files and folders?  
No exceptions.

Will I own all design work?

Will I own the content management system?

Do I get a free holding page whilst your main site is being created?

Do I have to host with you?

Will my website include an SSL Key?

Will you help me with the Google platforms

What about SEO?

Is there anything I need to be aware of?

Who builds my website?

What about after support?

If I choose you to host my website, can I leave at any time?

## Our answers

---

*Yes of course. You will have access to your complete database.*

*Yes of course. It's all yours ... to use as you need.*

*Yes - you have full access to your Wordpress CMS including the coding.*

*Yes - just let us know when our team contacts you. This can also help with your Google ranking.*

*No - you can host your website with whoever you choose.*

*Yes - Google have announced this is critical for security and ranking.*

*Yes, we would love to! We can help you with Google my Business, Google analytics, Google web search console and any other assistance you need.*

*This is an optional extra - we can make sure your website is fully optimised and will show you how we do it so you can continue.*

*Not at all - we are a completely open website design company that have built a superb reputation throughout the UK for quality, professional, websites.*

*Our team are all based in the UK and have extensive experience in building Wordpress websites.*

*We are always available either via phone or email for any advice and support you may need.*

*Yes - you can transfer your website any time you wish with a week's notice. That just gives us time to get everything together, communicate with your new host and make sure the transfer goes as smoothly as possible.*
